Enigma into 30/12/30

Believe, Lee Sam Shue states
that he is the real owner of
the woman, & during his temporary
absence in Wandong he had asked
C.O.s. 62 to keep an eye on her.

He returned to Shanghai yesterday
and upon his return at the theatre
caused by the woman, especially
as it has brought down the
C.O.s. 62! The master of the
longing house after has been
squeezed a p.

⇒ The woman is still absent
from Shanghai.

⇒ The Evening Home people
do not see any action to be
taken.

I thought I was of the
opinion that 32:62 was
perhaps more than a
"protective" interest in the
lady; the statement of the
Witness has somewhat cleared
him & I have accordingly written
him to learn more of opinion of
his attitude if he wishes to
continue in the Crime Service
& am very desirous to be
told.
